

Company Profile

We exist to serve the needs of our *customers* however challenging or different they might be.

Introduction

Cerberus Technologies was founded out of a growing need to provide end to end voice and technology solutions to customers in Kenya.

We have gained market leadership with a proven track record for providing various Industrial solutions

Our Vision

Cerberus Technologies aims to be the trusted advisor and provider to our clients by helping them enhance their business performance and processes through innovative and value added communications and technology solutions.

Corporate Values

The company upholds the following values and guidelines to its business operations.

- **Our People** : Our success depends on our ability to attract, develop and retain the best talent from the broadest range of people, backgrounds and perspectives and experiences. We have created an environment where every coworker feels valued, respected, included and challenged.
- **Customers** : We exist to serve the needs of our customers, however challenging or different they might be. We are always looking for better ways to create a superior customer experience by living our purpose, and keeping our commitments.
- **Suppliers** : Our commitment to partner with qualified businesses ensures we gain quality values and consequently provide the values to our customers in addition to the best overall experience

Our Mission

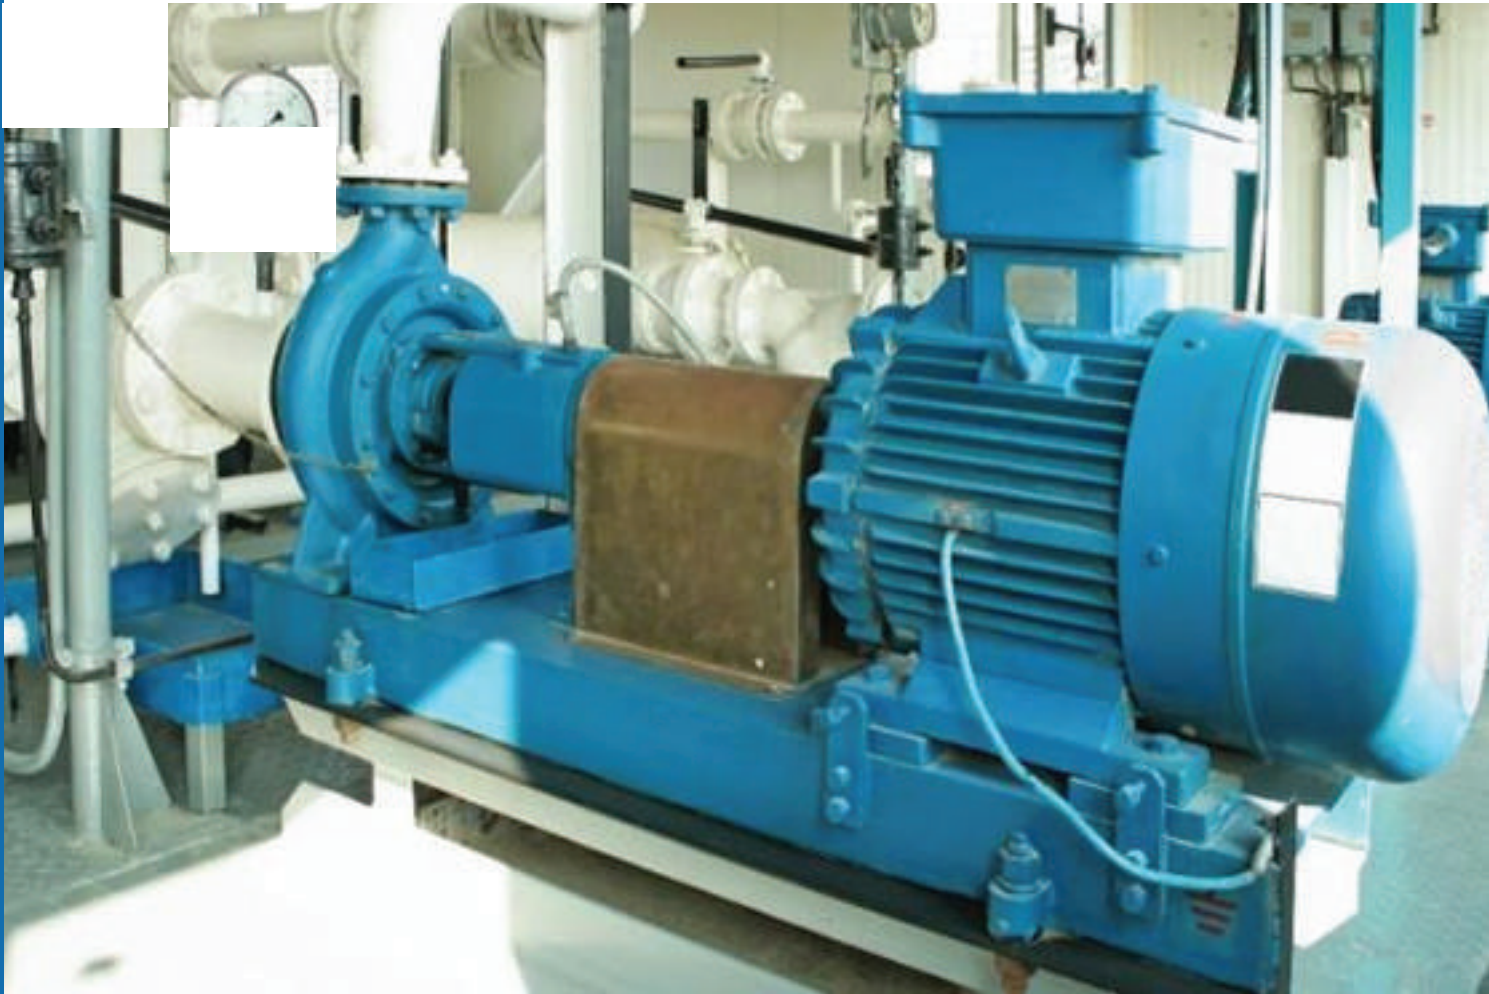

To empower our customers technologically by identifying and providing superior and innovative Industrial solutions which fulfill their needs and add value to their businesses while maximizing return on shareholder investment and upholding corporate and social values.

MANAGEMENT

Our team comprises of the best of breed professionals who have excelled with in depth knowledge in their respective areas. Consists of highly trained and motivated individuals with years of combined experience in electrical process & mechanical engineering, telecommunications and finance.

Capacity:

Cerberus Technologies has invested in a large resource base which is always available to ensure all projects meet the most demanding deadlines. You can be assured all your needs can be met with unmatched reliability, professionalism and service.

INTERNATIONAL BRANDS

We are proud to represent a range of leading brands that offer state of the art technology to the to name a few. local market. Some of the international companies we work with include, PPE Technologies, ABB Group, Santon Carlifornia Valves, Endress Hauser just to name a few.

The Business:

Since our inception we have expanded across the corporate and public sector sales as well as engineering, Industrial and business development. This achievement is anchored to our core values amd mission statement which guide our business processes and ventures and a highly focussed management team that gives direction on operational and strategic issues.

Industrial Supplies

Our objective is to capitalize on the existing focus of developing & expanding the existing energy infrastructure countrywide and become a preferred supplier of industrial specialized equipment, machinery & tools to the energy sector. These include:

- Flow Control Products for Power & Oil/Gas Industry.
- Measurement & Instrumentation Solutions.
- Switchgear & Electrical Components.
- Distribution transformers.

Special Purpose Vehicles & Equipment for

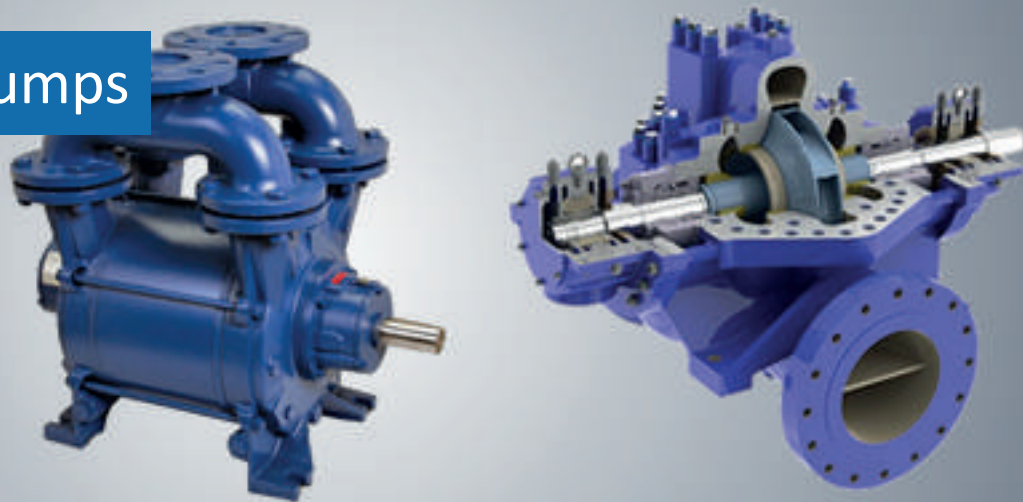

- Emergency response ambulances
- Disaster management: Fire Engines
- Aircraft Refuelling & Mining

Pumps for oil & gas, conventional power, water & industrial applications

- Single & two stage pumps
- Multistage pumps
- Reciprocating pumps
- Specialist pumps

Partners

Pump Products

Single & Two Stage Pumps

- Isoglide - Single stage, end suction pump
- Duoglide - Two stage, axially split, casing pump
- CUP-BB2 - Single stage, API, radially split, between bearings pump
- CUP-OH3 - Single stage, API, vertical in-Line pump

Multi-stage pumps

- CUP-BB5HP - Multi-stage, API, barrel radially split pump
- CUP-FK - Multi-stage barrel radially split pump
- SBWM - Multi-stage, vertical bowl, turbine pump
- CUP-VS1 - Multi-stage, API, vertical diffuser / turbine single case pump (VS1)

Reciprocating pumps

- Small power reciprocating - Power driven small (single acting plunger)
- Medium power reciprocating pump
- Large power reciprocating pump - Power driven large (single acting)
- Geared power reciprocating pump - Power driven geared (internally geared)

Specialized pumps

- E-Z Lift Reel System "Zeus" pump
- DB62c - Cryogenic multi-stage, vertical pump
- CUP-VSM
- CUP-CVP - concrete volute pump

Accessories

- Uni-Lok Zero®
- SNSAFE - Cage Mounted System
- CP System
- SNSAFE - Stainer System

Flow Solutions

GENERAL INFO

The advantages of Coriolis mass-flow measurement are self-evident. It comes as no surprise, therefore, to find that this principle is used in a huge range of industry sectors, including pharmaceuticals, chemicals and petrochemicals, oil and gas, food, and also in custody transfer applications in general.

Virtually all fluids can be measured: cleaning agents and solvents, fuels, vegetable oils, animal fats, latex, silicon oils, alcohol, fruit solutions, toothpaste, vinegar, ketchup, mayonnaise, gases, liquefied gases, etc.

One for all - multivariable metering. The ability to measure several process variables all at the same time opens up completely new application fields. Mass flow, density and temperature (the primary measured variables) can be used to derive other variables such as volume flow, solid contents, concentrations, and complex density functions.

Sensors

Proline Promass E 100
Coriolis flowmeter

The flowmeter with minimized total cost of ownership and an ultra-compact transmitter

Proline Promass P 100
Coriolis flowmeter

The specialist for life sciences with an ultra-compact transmitter

Proline Promass I 100
Coriolis flowmeter

The flowmeter with minimized total cost of ownership and an ultra-compact transmitter

Proline Promass E S 100
Coriolis flowmeter

The easy-to-clean flowmeter with self-drainable singletube system and an ultra-compact transmitter

Proline Promass F 100
Coriolis flowmeter

The flowmeter with premium accuracy, robustness and an ultra-compact transmitter

Proline Promass A100
Coriolis flowmeter

The single-tube flowmeter for smallest flow quantities with an ultra-compact transmitter

Proline Promass F 200
Coriolis flowmeter

The genuine loop-powered robust flowmeter for demanding applications

Proline Promass E 200
Coriolis flowmeter

The flowmeter with premium accuracy, robustness and custody transfer functionality

Proline Promass 84F
Coriolis flowmeter

The flowmeter with premium accuracy, robustness and custody transfer functionality

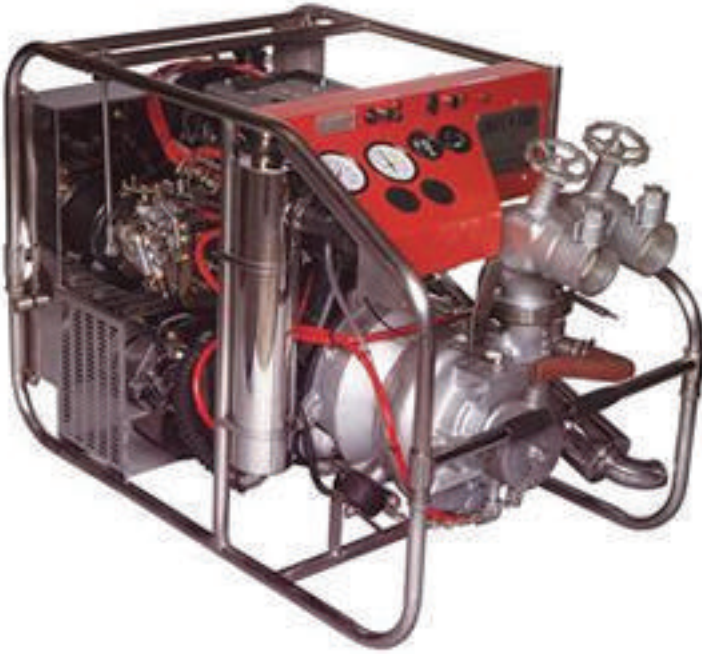

Proline Promass 83F
Coriolis flowmeter

The flowmeter with premium accuracy, robustness and extended transmitter functionality

Portable Fire Pump

Extensive range of specialist pumps both mobile/hand held to car mounted for fire fighting and flood relief operations.

Fire Truck

Voltage Drives

Low voltage AC Drives / Medium voltage AC Drives

Micro Drives

ACS150
0.18 to 4 kW
0.25 to 5 hp

ACS55
2.2 kW
3 hp

ACS355
from 0.37 to 22 kW / 0.5 to 30 hp
supply voltage 200 - 480 V

General Purpose Drives

ACS 310
Power range:
0.37 to 11 kW (0.5 to 15 hp)
0.37 to 22 kW (0.5 to 30 hp)

ACS 550
Power range:
0.75 to 75 kW (0.8 to 100 hp)
0.75 to 160 kW (0.5 to 200 hp)

ACS550-02
Power range:
160 to 355 kW (250 to 500 hp)

Special Purpose Drives

ACS 5000 water cooled
Medium voltage AC drive for control
of motors 7 to 36 MW, up to 6.9 kV

ACS 6000
Medium voltage drive for speed and torque
control of 5 up to 36 MW motors

MEGADRIIVE-LCI

Special Purpose Vehicles

Special purpose vehicles: We provide SPV's used in a variety of applications ranging from general commercial purposes to specialized industry applications. These include:

- Ambulance
- Hydrant Dispensers
- Aircraft refuellers

Ambulance

Aircraft Refuellers

Hydrant Dispensers

Summary

Cerberus Technologies continually undertakes research through our Business Development Department to continuously learn, train and adapt to the fast technology changes in getting solutions for quicker, faster and cost effective products, solutions and communications systems.

It is our mission to be the leading provider in our chosen markets therefore be assured of our highest level of commitment to offering the very best value through the combination of best practices backed up by top quality an and excellent service.

Referees

Among clients we've served are:
